

Idaho Marginal Tax Rates

Effective on July 1, 2024. Idaho's tax rate is 5.695% for all taxpayers. For individuals, the rate applies to taxable income over:

- \$2,500 if you're filing single
- \$5,000 if you're filing jointly

The base amounts of \$2,500 and \$5,000 are indexed for inflation. Since 1998, the Tax Commission has adjusted the income tax thresholds each year to account for inflation.
