

## **AMENDING FEDERAL AND STATE TAX RETURNS - TaxSlayer**

(Simplest case where taxpayer or IRS finds an error in original tax return)

**NOTE: You must begin the Amended Return procedure with a corrected tax return**

### **Prerequisite:**

1. Print a copy of the uncorrected tax return (as originally filed)
2. Correct the federal and state tax returns (If not already on TaxSlayer, recreate and correct them)
3. If you have to recreate the returns, go to the E-file section and select “Paper” for federal and state.
4. Perform a Quality Review to ensure the state and federal tax returns are now correct.

### **Start the Amended Tax Return Procedure:**

4. Navigate to the Amended Tax Return Section by Clicking on the Amended Return Menu. This creates a 1040X form and populates column C with corrected taxpayer data.
5. Click on “**Original Federal Return Information**”.
6. Enter the return data from the uncorrected tax return (that was printed in prerequisite step 1). This populates columns A and calculates column B of the 1040X form.

**Note 1:** If the original federal return was E-filed, Tax Slayer will correctly populate most of 1040X column A except for a line which calls for tax paid with the original tax return. Normally only verification of the other lines in column A is necessary. If the original was not E-filed or was not created in TaxSlayer, all 1040X column A lines must be input in accordance with TaxSlayer line by line instruction.

**Note 2: The 1040X is now complete for the Federal Tax Return except for explaining changes. If the state return needs to be amended, continue to step 7, otherwise continue to step 12**

7. Select “Amend State Return(s)” and click on Begin
8. Click on “Amend State”, Select Idaho, and Continue
9. Click on “Begin” and Continue
10. Answer “Yes” to the question “Do you want to file an Amended State Return” then click on “Begin”
11. Fill in the requested information from the printed copy of the original uncorrected State return (prerequisite step 1) and then the reason for amending the state return.

**Note: The Amended Idaho State Return is now complete except for explaining the changes on 1040X. Verify the 2 boxes at the top of Idaho Form 40 now show it is an amended state tax return and the correct code for amending the return is displayed.**

12. Select “Explain Changes” from the Amended Tax Return -1040X menu

13. Carefully explain the changes line by line per TaxSlayer Instructions. Also Include explanation of State changes if made in addition to federal changes. These explanations populate 1040X page 2

14. Create a PDF by selecting “Print Amended Return”.

15. Print the appropriate pages of the federal and state returns and perform a quality review to ensure 1040X and Amended Form Idaho Form 40 entries have correctly transferred. Have client sign the form

**Note: IRS does not match up the original incorrect return with the amended return. Be sure to include with the amended 1040X form all forms (those with sequence numbers at top right hand corner) if they changed as a result of amending the tax return. Anecdotal evidence suggests the IRS will just return the amended return to the client if supporting IRS form documentation is not included with the 1040X form.**

**Note: Amended returns cannot be E-Filed. Mail the amended returns and any other IRS forms that changed as a result of being amended to the appropriate address. (Don’t send worksheets)**
